

Getting Started with BigCommerce

Start connecting in a few simple steps!

Connect with BigCommerce and when orders are submitted to your online store, those details are automatically sent to the contact record in Act! Premium. View the order ID, quantity and price of items ordered, and order total. Use that info to boost your sales and marketing efforts!

Step 1.

Create an Element Connect account [here](#).

Step 2.

Connect your account by clicking the Act! logo, then enter your base URL, username, password, & database name. For Web users, the base URL is the URL you use to access your database, excluding info after .com. For Windows users, find this URL at the top of the Act! Connect page in-product.

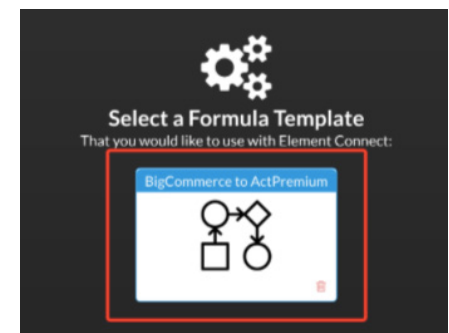

Next, click the BigCommerce logo to enter your username, API path, & API token. Find them [here](#).

Step 3.

Click the Act! logo again, select the formula template, then select confirm to complete your setup.

Important Note: Review Act! system and browser requirements at act.com/systreq. Act! product capabilities and pricing vary based on edition and services chosen. One license is required for each Act! user. Act! Connect services require an active subscription, and use of either the Act! Web API or Act! Connect Link depending on deployment and access method. Services purchased through third parties are subject to the respective third party's billing policies and usage terms. Basic Act! emarketing account included (email up to 500 contacts per month). View membership details at swiftpage.com/billing-policy.
